

SOLUTION FOR EXPORT PACKAGING

We care your cargo

BROCHURE

ABOUT US

Established in the year 2010 at Bharuch, Gujarat, Elite Industries is one of the most professional, progressive, and punctual enterprise in the Indian packaging and material handling industry.

As a manufacturer and wholesaler of Export Packaging Material for Container and Cargo, we are determined to fulfill every urgent and large quantity requirement of customers for a variety of quality products in packaging, material handling and insulation domain. Export Packaging is our key USP.

Our products are precisely manufactured by following high quality standards for best performance matching international standards. We understand that our success is dependent upon yours. We offer top quality packaging materials at competitive prices. Being a large-scale manufacturer and distributor, enables us to pass on bulk discounts directly to the customer. This allows our customers the opportunity to purchase supplies in smaller quantities at the lowest possible prices. In a bid to help our customers order in confidence, we always stand behind our products and back every order with a 100% satisfaction guarantee. While we look forward to building continuing relations with our customers, we always strive to stand above the competition. Unarguably, Elite Industries is your one-stop source for all of your Packaging, Material Handling and shipping supply requirements.

- 150+ Happy clients
- Free Packaging Consultancy
- 15+ Years experience in Packaging Industries.
- Supplier of monthly 5000-7000 container's material.

PET STRAP

- The PET strap is well-suited to the strapping of stacked and packaged products, such as sawn timber, cardboard, chipboard, plywood, paper, tile and glass. All of our PET strap can be used with manual and automatic strapping machines. Our strap has stable geometric and mechanical characteristics throughout the length of the strap. PET Strap Rolls are preferred by the industries for heavy load applications. PET straps can sustain high tension for longer duration of time and have high stretch recovery.

Standard Colours:

- Dark Green & Light Green. Other colours on request subject to minimum required quantity.
- Core Size : 8"(203) 16"(406)
- Elongation : Up to 18%
- Packing: One roll per pack

Clips & Strapping Tools Are Available

Solution For Export Packaging

STUFFEX

AIR DUNNAGE BAG

- Air Dunnage Bags are a protective packaging solution designed to keep your cargo safe & secure during the transit. It provides load stability and support. Air Dunnage Bags are inflated with compressed air to serve as padding and placed in the spaces between the cargo and the empty spaces.
- Dunnage Airbags ensures that your products will reach its destination safely. It is the most efficient and trustworthy technique for securing your cargo in a truck, trailer, or sea container.
- The goal of the purpose of using a Dunnage Air Bag is to decrease load shifting during transit, which increases the risk of product damage and has a negative impact on customer satisfaction.
- You can prevent the Accident during the unloading at your customer end.
- If the empty void and/or unattended space in an EXPORT Container / Containerized Vehicles is the cause of your worry. Be Rest Assured! Dunnage Air Bags with auto-shut-off and fastest-filling valve (within few seconds) on EARTH we can confidently not only SECURE your cargo but in a way secure your CUSTOMER too. Our each bag is made up of VIRGIN PE Bladder and EXTENSIBLE KRAFT paper thus offering you a highly dependable dunnage system which along with filling the void also provides CUSHIONING to your cargo during it's entire journey worldwide.

FEATURES & BENEFITS :

Comprehensive range of accessories to guarantee the best solution for every application

Ease of inflation due to edge valve

Unique lamination for superior performance in durability, moisture and puncture resistance

Made from 100% recyclable materials

TYPES OF DUNNAGE BAG :

TWIN BAG

GAZZETED

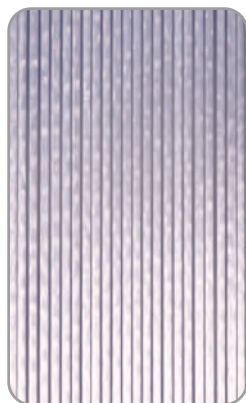

REGULAR

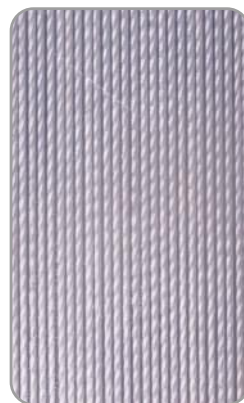

POLY COMPOSITE STRAP

- Poly Composite strap is the most effective & easiest way to secure cargo for international shipping on any mode of transport unit like flat racks, Container, or for Palletization, our lashing system eliminates any kind of damages & incidents to your cargo during transit.
- Poly Composite straps is made up of strands of polyester fibres, all travelling vertically and coated together by clear polypropylene. The Polypropylene coating increases its resistance to abrasion, yet still allows for slight elongation during transit. Poly Composite straps come in a variety of widths and tensile strengths.
- Flexible composite strapping can be utilised for a variety of packing purposes. They have an impact resistance that is seven times higher than steel strapping, making them extremely resistant to extreme weather

STRAIGHT

TWISTED

KEY FEATURES :

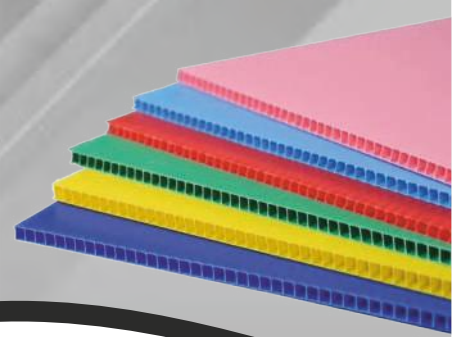

- Safe for Your People
- SHOCK Absorbent
- Elongation RECOVERY
- High CROSS Directional Strength
- ENVIRONMENT Friendly & Easily Disposable
- Good WEATHER Resistance & U.V. Stabilized
- Reduce IN-TRANSIT Damages

Buckle & Tensioner Tools Are Available

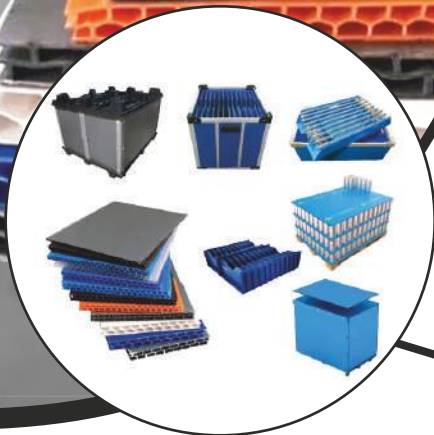

Specification

| Width | Break Load (Kg) | System Strength (Kg) | Meter per coil |
|-----------------|-----------------|----------------------|----------------|
| 13 mm | 215 | 360 | 1100 |
| 16 mm | 300 | 490 | 850 |
| 19 mm | 360 | 520 | 650 |

PP CORRUGATED SHEET

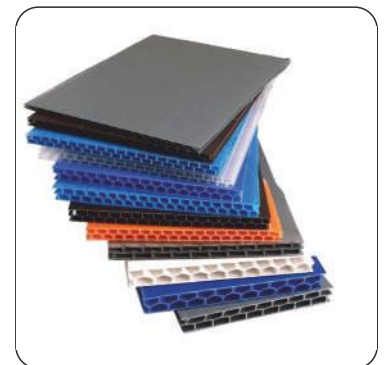

Twin Wall / 3 Ply :

PP corrugated 3Ply sheet is a hollow plastic sheet consisting of two parallel plates connected by vertical ribs. Twin wall/3ply is made of polypropylene - copolymer which meets environmental protection requirements. PP corrugated sheets is environment friendly and can be recycled. Elite Industries created Twin wall /3 ply, an advanced PP corrugated sheet, specifically for the protective packaging.

Multi Wall / 5 Ply :

PP corrugated 5Ply sheet is designed to cater to heavy-duty applications. Multiwall / 5ply is a patented product with double flute giving additional strength. It was designed to meet the rising demand for packaging materials with greater strength. Staggered sheets, which have a variety of extraordinary qualities, can be easily transformed into boxes, cases, and returnable shipping containers.

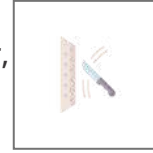

FEATURES & BENEFITS :

Extremely light and long-lasting

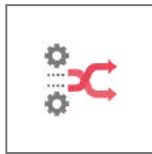

Highly resistant to weather, oil, and chemicals

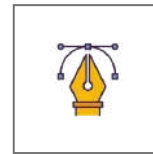

Impact and scratch resistance

Ecofriendly and 100% recyclable

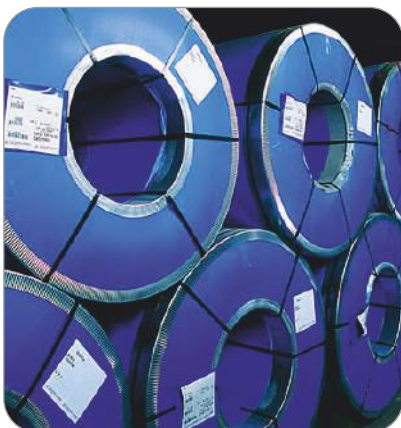

Simple to use and convert

Excellent for graphics and printing jobs

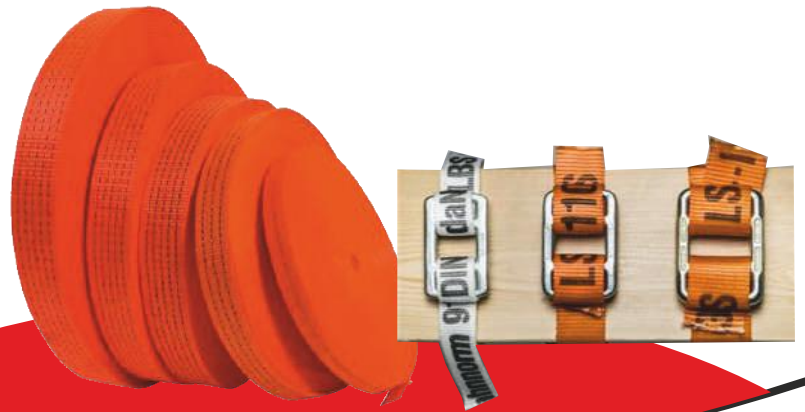

Specification

| Product Name | Twin Wall / 3Ply | Multi Wall / 5Ply |

WOVEN LASHING STRAP

- Woven Lashing Strap solutions have many advantages over conventional lashing products. They are safe, easy to apply – and eliminate cargo damage. Woven Lashing Strap are manufactured from high quality filament yarn. These are used for tightening the products on an open container or open trucks. It has very high strength & is fixed with wire buckles or hooks.
- If your organization is the one affected by those FUMIGATION Certification and ISPM 15 Compliances all the time for SECURING your EXPORT Containers with Wooden Choking, Wooden Lashing, Etc., Etc., Then, our ORIGINAL and PROVEN Woven Lashing Strap is the SOLUTION which is just a PHONE call away to all your certification/documentation worries. With more than 2.0 lacs export container leaving the Indian Ports with our ONE-WAY LASHING SYSTEM every year we prevent not only your EXPORT CARGO but lot of sleepless nights of the Corporate Indian Inc.
- It is available in various Widths & Various Strength; tailor-made straps supply is also possible (32mm to 50mm).

Easy to apply

- Protective
- Shock absorbent
- High retained tension

elite industries

Solution For Export Packaging

PP BOX STRAPPING

Strapping rolls are made from PP materials. These strapping rolls are having more shining and strength so it is widely used in various industries as well as home applications. These box strapping have the highest strength and high length to weight ratio to give economical and efficient binder cord.

Available:

Fully automatic, semi-automatic, manual natural, coloured and printed.

Specifications:

- Width : 6mm to 19mm
- Thickness : 0.5mm to 1mm
- Length : as per requirement.

Clips & Strapping Tools Are Available

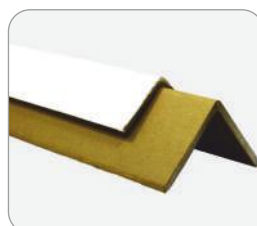

PAPER EDGE BOARD

- We feel proud to introduce ourselves as one of the well-known suppliers and exporters of Paper Edge Board. The offered paper edge board is widely used for providing the load bearing capacity, to the packaging containers. Oursupplied paper edge board is acclaimed for protecting the edges and corners of the packaging containers and shipment goods. The exported paper edge board is available at very affordable and reasonable market rates.
- The smart slip sheet is used as a pallet support device in vehicle delivery and transportation of products. When slip sheets are supported by a pallet board, flat load carrying surface, or a cart or fork lift truck, the structural strength of the slip sheet supports the product load's weight. With the slip sheet supported by one of these transportation devices the unit load can easily be transported both internally within a facility and externally between two facility locations.

Specifications:

- Material: Kraft Paper
- Thickness: 3mm - 7mm
- Length: 1800 to 3600 mm

Angle Board

ID & OD Protector

Slip sheet

Solution For Export Packaging

STRETCH WRAPPING FILM

ELITE INDUSTRIES Your source for all quality grades of stretch wraps (Pallet Wrap) film need. Stretch Wrap, also known as pallet wrap is a simple process of wrapping boxes or items that have been accumulated on a pallet and then pulled tightly together by the force on the film wrapped around the boxes or items. Outline of stretch films is made for performance and value.

Specifications:

- Thickness: 13 microns to 200 microns.
- Width: 100mm to 3000mm
- Yield: up to 200% - 300%

SECURITY SEAL LIGHT DUTY/HEAVY DUTY

SECURITY SEAL LIGHT DUTY / HEAVY DUTY

Material : Nylon, PP, HDPE (based on Application)

Features :

- It's Self Locking application conventional and Single Point Locking design ensures Tamper evident application just by inserting serrated strap (length) inside the locking head.
- Length can be adjusted to required Diameter
- Identification (marking) Tag offers enough space for hot-stamped / laser printed Logos and 7 digit numbers
- No Tool required for installation

Application : Ship Cabin Door, Transport Vehicle doors, ATM currency cassettes, Inter Branch Zipper Bags. Airline Baggage's. Postal Dept. & Courier bags. Currency bags. Pharmaceutical - Chemical bags and drums. Fire extinguishers. Quality control Brand Identification

NONRELEASIBLE CABLE TIES

Material : UL Approved Nylon - 66, 94 V - 2

- Cable Tie is an economical and versatile method of Cable/Wire bunching system
- Cable Tie has a self locking, one piece construction ensures the fast and easy installation

Application :

Indoor, Outdoor (U.V Stabilised), Heat Stabilised, Fire Retardent.

RELEASIBLE CABLE TIES

Material : Nylon - 66

- The Releasible Cable Tie permits easy release and reuse even after ties has snug by hand.
- These are useful in harnessing where changes are anticipated during development, production or in the field.

SELF ADHESIVE TAPES

MASKING TAPES

- Resistant to strong solvents and paints.
- Good holding power.
- Excellent for many industrial applications.
- Will not tear while removing.
- No adhesive transfer after removal.

KRAFT PAPER TAPE

- Strong adhesive ability
- good performance in re-stripping & packaging
- Recommended for export packing
- environment Friendly

FILAMENT TAPES

A self Adhesive Tape which has been specially designed for applications requiring a high breaking strength. This tape has a film backing and rubber adhesive. Woven glass fibers reinforce the backing, making this product extremely strong when used for heavy packing where it can replace metal and polypropylene strapping to great advantage.

DUCT & BOOK BINDING TAPES

- Ideal for Insulation, underground pipeline, corrosion & abrasion protection.
- Good resistance to moisture, humidity.
- possessing outstanding conformity.
- It is designed for industrial or pipe wrapping.

Colors available :

Black, Red, Pink, Silver Grey & Many more.

ALUMINUM FOIL TAPES

- For general purpose seaming, patching and sealing.
- Highly Suitable for sealing off air conditioning and cool/warm air flow ducting.
- For sealing joints in ducting providing a flame retardant & vapor-proof barrier.
- Excellent adhesion on dry/clean surfaces on metal and other surfaces.
- Sizes available from 25mm/50mm/75mm/100mm in width to customized length.
- Available from 25 micron, 30 micron, 40 micron, 50 micron and 100 micron in the thickness.
- Product Application : HVAC duct wrap, protective masking and

DOUBLE SIDED TISSUE TAPES

- Excellent quick double-stick. Strong adhesion, Hand tear-able. A perfect substitute to replace glue for bonding.
- Non-deteriorating. Applicable for decoration, postal service & laminating.
- Ideal for holding and joining of light weight items in office and household application.
- Various sizes and grades available.
